

Gentlemen,

I recently bought a new car equipped with an XM satellite radio. I very much enjoy the excellent programming this service provides. I feel that satellite radio provides variety and quality that are not available elsewhere. I pay for these services and I do not believe it should be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,

Walt Loevenstein
